

Fender American Stratocaster Black Rosewood Fingerboard With Hardshell Case

Icon. Not a word to be used lightly. But the Stratocaster is just that. The new American Standard Stratocaster guitars are beauties to behold in sound, look and feel. We kept the hand-rolled fingerboard edges, alnico V pickups and staggered tuning machines for playability, tone and stability, and added several new features, including: A new bridge with improved bent-steel saddles and a copper infused high mass block for increased resonance and sustain. A new neck treatment tinted for a richer presentation, with the maple or rosewood fingerboard buffed to a high gloss. The back of the neck still has that silky satin finish. A thinner finish undercoat that lets the body breathe and improves resonance.

Features

Unique Features: Bent Steel Saddles with Elongated String Slots, Copper Infused High Mass 100% Metal Bridge Block, Thinner Undercoat Finish for Improved Body Resonance, Tinted Neck, Aged Plastic Parts.
