[Yamaha P-125AB Digital Piano With Stand \(*Local Pickup Only\)](#)

The P-125 is loaded with features to give you an acoustic piano playing experience in a portable package. It produces the dynamic, high-quality sound and natural piano touch response you've come to expect from Yamaha digital pianos while maintaining a sleek and slim footprint.

The P-125 was designed with simplicity of use in mind. The intuitive user interface makes using functions like Dual Voice or Split Keyboard a breeze. Every element of the P-125 is designed to help you stay focused on what really matters: your performance.

The newly improved 2-way speaker system produces an expansive piano sound in both upward and downward directions. This gives the player a rich stereo sound, as if you were sitting at an acoustic piano.

P-125 has on-board Bass and Drum tracks that keep your playing in time and follow your harmony. There's a variety of rhythm patterns to choose from depending on the vibe you're going for. From rock to ballads, use these rhythms to add an element of fun to your practicing, or use them as a backing band for your performances.
